

DEGOVERSE

Sport Prediction Gambling Metaverse
enhanced by **Smart NFTs** and **Stable Coins**.

WHITE PAPER

August 2022

FIFA WORLD CUP
Qatar2022

The Project

The full project consists in the realization of the Sport Prediction Gambling Metaverse Enhanced by SMART NFTs and Stable Coins.

In this release, we will focus on the World Cup, starting with Qatar 2022.

A 10K Smart World Cup NFT Players will be used for this purpose.

With this smart NFTs you'll be able to:

- Collect your favorite Qatar 2022 soccer teams.
- Upgrade your NFTs
- Bet on World Cup Match Results
- Trade your NFTs with the community
- **Play-to-Own** on the upcoming betting metaverse by completing single, cooperative or hybrid objectives.

To do so, we are launching several NFTs in our platform: Smart NFTs Players, and Game Items NFTs.

Trading Powered by
OpenSea

Stable Crypto Approach

In this project, we want the community to focus on the value of their NFTs without worrying about the volatile value of cryptocurrencies.

That is why we are sure that the approach of using the whole platform with Stable Coins and without its own native currency is the best.

**Sport Prediction Gambling Metaverse
enhanced by Smart NFTs and Stable Coins.**

Smart NFTs Players

The smart world cup NFTs at DegoVerse are Non Fungible Tokens that have extra features.

This qualities are:

- **Collective NFTs.** Each NFT allows the owner to collect as many teams as wanted.
- **Tradable NFTs.** Each NFT allows the owner to trade with other owners.
- **Upgradable NFTs.** Each NFT allows the owner to upgrade by training its NFT.
- **Membership NFTs.** Each NFT allows the owner to participate in the DegoVerse Metaverse.

Skills

Each NFT Player has a set of 5 randomly created enhanceable skills:

1. Defense - Core Skill
2. Attack - Core Skill
3. Physical - Core Skill
4. Morale - Psyche Skill
5. Experience - Psyche Skill

NFT Minting using Chainlink VRF

The challenge was to make the creation of the NFT **100% random**.

We needed to create a real and reliable process where the creation of the NFT traits would be truly random.

We use Chainlink for this.

Traits

Your NFT is composed also by several distinctive characteristics. That is called a Trait.

Is a set of features that makes your NFT unique.

Amongst traits you can find:

- Hair Type
- Arm Tattoos
- Legs Tattoos
- Ethnicity
- Ball
- Jersey
- Ankle Boots

Sports NFTs

Inspired by 2D and 3D models, Sport NFTs is a special type of NFT in DegoVerse that allows enhancing Smart NFTs Player Skills.

- The main uses for Sport NFTs are:
- Use it to train your Smart NFT Players and enhance them.
 - Collect them, as they have a great deal of rarity.
 - Trade them in our Trade Place. You own them!

Game Items

As part of being a pro, you should be able to have strategies around your collection and bettings.

For that we have created another set of NFTs that are useful to boost your Smart NFT players and get bigger earnings.

Create your own sport nft rarities and became DegoVerse Creator.

Game Cards

Lucky Cards

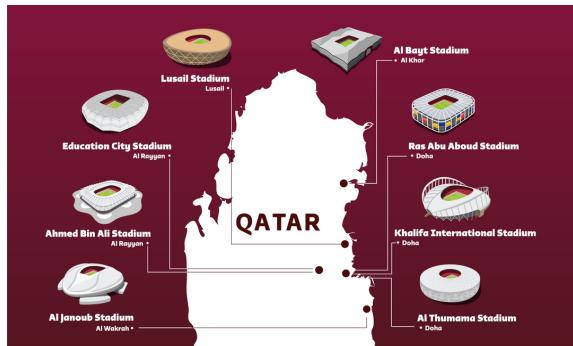

Game Cards are a game component in the form of an NFT that allows you to create different strategies and tactics to improve your betting results.

Training Cards

Training Centers

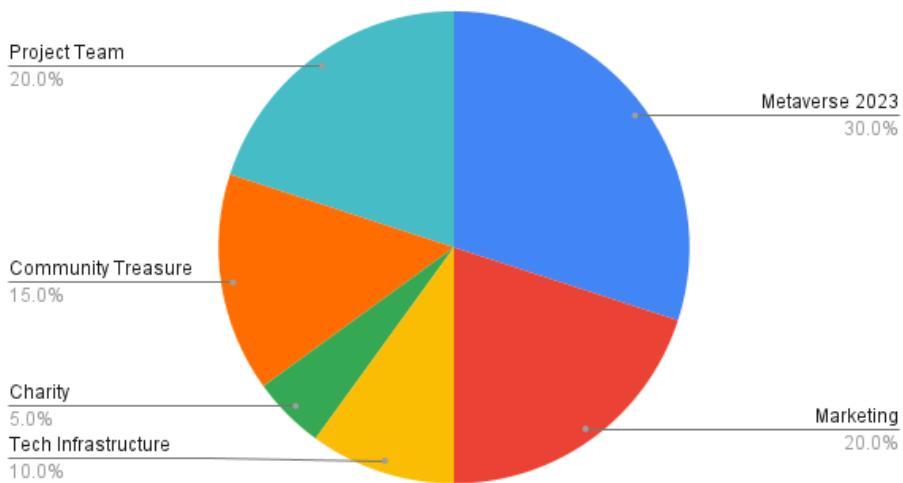

On training centers, you'll be able to enhance Smart NFT Players Skills using Training Cards.

[More info about Game Items, please check docs Here](#)

Tokenomics

Tokenomics DegoVerse

Unlike any simple NFT collection, DegoVerse NFT Collection has a lot more utilities. So we decided to have a similar approach to what we collect.

- **Metaverse 2023.** This is a fund to develop everything related to the 2023 Metaverse Edition. How the project is continuing after Qatar World Cup 2022.
- **Marketing.** We are going to hire different marketing approaches to get the project more known.
- **Community Treasury.** This is the part of the fund that is coming back to the community in the form of credits and other NFTs for community players to use in the platform.
- **Tech Infrastructure.** We'll use this fund to maintain all tech aspects of the platform.
- **Charity.** We are going to donate to charity this part of the fund.

Trade Market

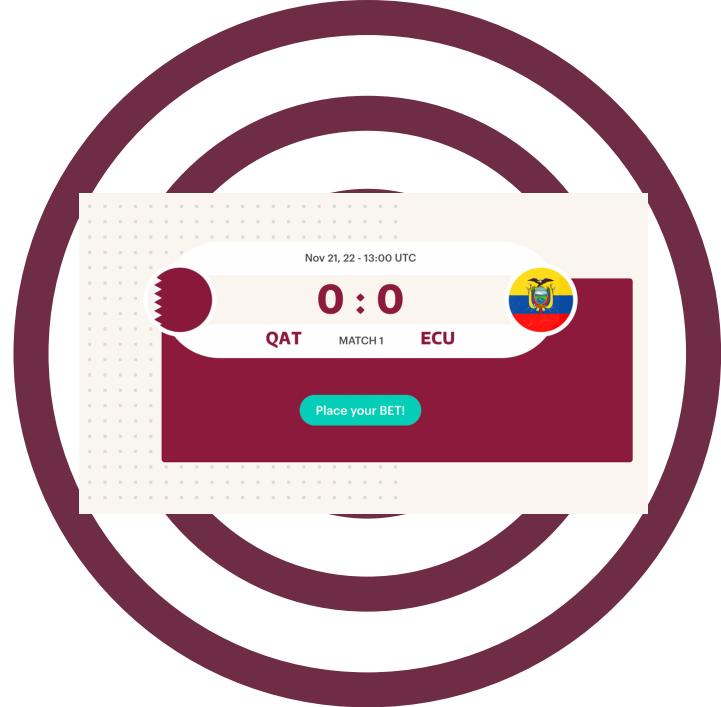

Trading Powered by
OpenSea

In Degoverse Trade Market you'll be able to buy, sell and trade all Degoverse NFTs (Smart NFTs Players and Game Items) without paying any gas fee!

The screenshot shows the OpenSea interface for the 'DEGOVERSE FIFA WORLD CUP Qatar 2022' collection. At the top, there's a banner with the collection name and a small thumbnail image. Below the banner, the page title is 'Degoverse World Cup 2022'. It displays basic statistics: 10.0K items, 1 owners, +0.00 total volume, and --- floor price. There are tabs for 'Items' and 'Activity'. A search bar and filter options are at the bottom.

World Cup Gambling

- Treasury bets are placed between members of the metaverse using the Smart NFT Players as access to participation.
- In each "treasury" the bets against and in favor of each team will be added, and will be distributed proportionally to the result of the match and your PowerBoost Skill.
- Bets can be placed on: win, lose and draw. This type of bet is also known as "win-draw-win".
- Bets are placed using Stable Coins (USDC)

Play-to-Own

This is a new concept in which you get a value from participating in the platform in a specific way and you can decide what to do with it.

Types of Goals: Single or Cooperative

Single

This Goals can be achieved by one community member by using their own Smart NFTs Players, Game Items, and Stable Coins.

Communal

This Goals can be achieved by several community members by using their own Smart NFTs Players, Sport NFTs, and Stable Coins.

The ultimate price

The Team

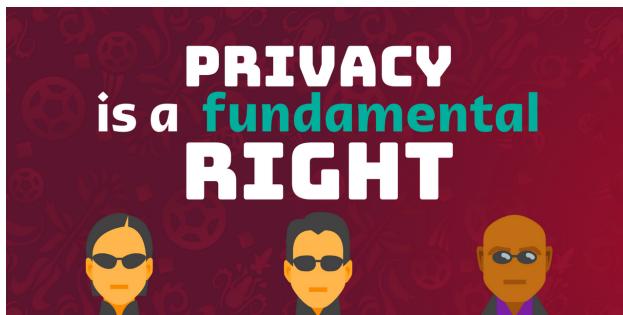

At Degoverse, we believe that the privacy is one of the most valuable asset someone can hold. Is something that once lose, can never be regained again.

That is why the DegoVerse Team remains private.

This doesn't mean that the team is anonymous: You can contact us over discord, telegram or email.

We are glad to jump in a videocall if needed. But that should be our choice, our right.

Thank you.
